For the company that helped pioneer the polyethylene (PE) fusion industry, there remained yet another step for Central Plastics to take...

Central Plastics is proud to introduce the newest addition to our corporate family:

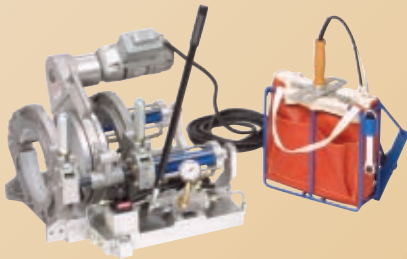

Connectra® Fusion Technologies, LLC

CONNECTRA®
simply fusion
A Central Plastics Company

One company focused on Polyethylene Pipe fusion and only fusion. Equipment and service that is cost-effective, robust and no-nonsense. An experienced alternative you can count on. Basic. Smart. Simple. Because you simply need to get the job done right.

Squeeze-off Tools

Model 28 CQ
Butt Fusion from 2" IPS - 8" DIPS

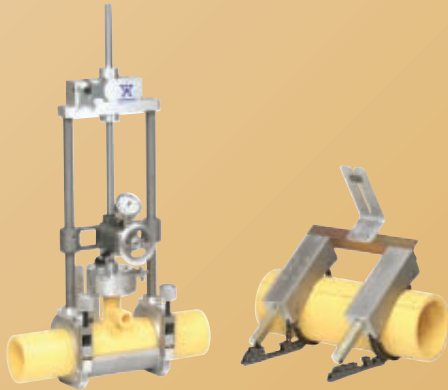

Model 414 SC
Butt Fusion from 4" - 14"

Butt Fusion Equipment 3/4" to 42"

When you call Central Plastics, you're not just ordering a product. You're partnering with a company known for its product expertise and technological innovation. With the addition of the simple and reliable Connectra® family of fusion equipment, we now offer our customers a broader range of readily available fusion products at competitive prices.

Central Plastics and Connectra® – The Right Connection.

Sidewall Fusion Equipment

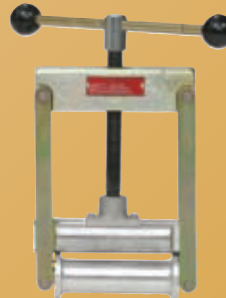

The connection since 1935™

Connectra® Fusion Technologies: Did you know?

Connectra® Fusion Technologies was founded in 2001 as a result of a merger between Christie Capital and TD Williamson's Polyethylene Products division. However, it has almost 40 years of experience in the industry, with its product roots tracing back to Christie Manufacturing and Rigid Tool. With a motto of "Simply Fusion", Connectra® has enjoyed success in the polyethylene pipe fusion industry by focusing on simplicity and reliability. Touting its hand operated machinery as a "basic, smart solution", the company also offers a full line of fusion equipment and accessories, including electric hydraulic machines up to 42-inches.
